“Quality Cattle From Producer To Feeder”

During the last thirteen years, it has been our privilege to send thousands of calves and yearlings into the corn belt states. We specialize in quality cattle of even weights and conformation. Eighty per cent of our customers buy one car load of cattle. They want quality and as even weights as possible. The handling of so many cattle enables us to render this service.

Our price list will be ready Oct. 1. Movement of cattle will begin Oct. 15.

We appreciate your past business, and ask for continuance of it. Our purpose is to serve our customers to the best of our ability.
