

# FRANKLIN

## BLACKLEG VACCINE

THE experiments connected with the perfecting and the proving of this improved vaccine extended over four years and involved a testing out on over 50,000 head of calves before the product was offered for sale. These four years of extensive testing previous to its being offered to the public, and the years of widespread commercial distribution since, make an aggregate use running into many millions of doses, the universal result of which is Positive Life Immunizing and a uniformly successful prevention of Blackleg.

## FRANKLIN "Brand-Em-Of"

A BETTER BRANDING METHOD  
SCIENTIFIC chemical compound produces scab which leaves a clean-cut lasting brand when properly applied. No festering sores or infection and no pain to animal. The original and proven Branding Liquid. Fully guaranteed. Costs about one cent per head. Half pint 75c. Pint \$1.25; Quart \$2.25.

Send for descriptive leaflet.

## FRANKLIN "Dehorning Paste"

HANDSOMELY SHAPED HEADS  
PERFECT results with this paste. No bleeding. No sore heads to treat. Most humane of all methods of dehorning. Apply to horn buttons under two months of age. Quick, easy, sure and safe. \$1 and 50c bottles.

## FRANKLIN "Antiseptic Dusting Powder"

ANTISEPTIC Dry Dressing for open wounds on all live-stock. Excellent for minor cuts and abrasions. Easy to shake on. It is antiseptic, healing, astringent and absorbent. Much superior to ordinary alum powders.

Where possible, wound should be cleansed thoroughly with weak solution of Franklin Cresolis. Then apply powder freely once or twice daily.

5-oz. shaker top can 50c.

## HIGHLAND'S CHOICE For Seventeen Seasons!

CALVES of the Highland territory have been enjoying immunity from Blackleg ever since Franklin Vaccines were introduced here in 1917. Some 100,000 calves in the Big Bend territory have been protected this way.

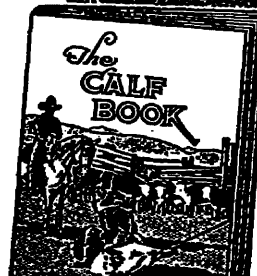

Today, probably 90 out of 100 Highland calves are safeguarded from the ravages of Blackleg by the quick, safe, concentrated Franklin dose.

Results are so nearly 100% that the Franklin product can be regarded as giving sure-fire, fool-proof immunity, and one dose immunizes for life.

The Franklin Company has also pioneered improved methods of dehorning, branding and castrating, as well as immunizing against the various diseases.

Full information is given in the 36-page illustrated Calf Book which is free for the asking.
