
DEATHS AND BURIALS

Hermann Feisst.

Hermann Feisst, former owner of the People's drug store, leader of the local socialist party, is dead in New Zealand, the land to which he went upon selling his business to another house, in the hope of enjoying the blessings of a government which was more nearly in accord with his theories. Death was caused by Bright's disease. Godfrey Hughes of this city was requested several weeks ago to act as administrator of his estate, which consisted of lots in Campbell's addition valued at \$10,000.
