## New Tipps Service Cars

Shown above is a photograph of the new modern wrecker and fast service delivery car recently put into service by the Tipps Motor Company, local Dodge and Plymouth distributors, located at 815 North Mesa Avenue. In addition, the Tipps Motor Company also offers motorists the use of a four passenger sedan courtesy car while service work is being completed on their own automobile. Twenty-four hour service was inaugurated in this dealership some months ago so that they could more adequately handle the demands of the motoring public of the Southwest.
