

New Service Truck

formance, the Hammond equals the most costly pipe organ and, in addition, produces tones not to be found in pipe organs. And this new musical marvel is no larger than a good grand piano.

Will R. Schutes, proprietor of the El Paso Piano Company, 2125 Texas Street, calls attention to the remarkable advantages of the Hammond

The new service car shown above, recently added by the Tri-State Equipment Company to better serve owners of their heavy duty equipment throughout the territory. The service car is equipped with both arc and acetylene welding equipment; all electrical tools, such as drills, grinders, complete valve-reconditioning equipment, as well as special tools for different mechanical operations. According to C. C. McNay, the new service car really takes the shop to the job, instead of having to bring the heavy equipment into the shop.
